日時:平成25年4月26日(金) 13:00~17:45

場所:高松合同庁舎 アイホール

THE INTERNATIONAL eHEALTH, TELEMEDICINE AND HEALTH ICT FORUM For Education, Networking and Business

Med-e-Tel is an official event of the International Society for Telemedicine & eHealth (ISfTeH), THE international federation of national associations who represent their country's Telemedicine and eHealth stakeholders.

International Society for
Telemedicine & eHealth

The ISfTeH exists to facilitate the international dissemination of knowledge and experience in Telemedicine and eHealth, to provide access to recognized experts in the field worldwide, and to offer unprecedented networking opportunities. Med-e-Tel is one of the instruments that help the ISfTeH to realize this mission.

eHealth, Telemedicine and Health ICT are a tool at the service of medical and nurse practitioners, patients, citizens, healthcare institutions and governments. It involves many different stakeholders who need to be brought face-to-face to share aspirations, learn from research and experiences, show the possibilities, understand the market, discover new applications. Med-e-Tel is the meeting place with a proven potential for **Education, Networking and Business** among a global audience with diverse professional backgrounds.

EDUCATION

Attend the vast conference program featuring over 150 presentations and workshops, and learn from experience built up by experts from around the world. Hear about current applications and best practice examples, see a glimpse of future trends in Telemedicine and eHealth, and their effect on the healthcare system as a whole. Get an update on new developments that will allow you to stay ahead and make more effective and efficient use of technologies to improve quality of health, medical and social care.
